FIRST SUBSTANTIVE MEETING OF THE AD HOC OPEN-ENDED WORKING GROUP ESTABLISHED PURSUANT TO GENERAL ASSEMBLY RESOLUTION 72/277 OF 10 MAY 2018 ENTITLED “TOWARDS A GLOBAL PACT FOR THE ENVIRONMENT”

14-18 January 2019

WELCOME NOTE

The United Nations Environment Programme (UN Environment) looks forward to welcoming you to Nairobi, Kenya to participate in the abovementioned meeting from 14 to 18 January 2019.

BACKGROUND

By General Assembly resolution 72/277, the Assembly requested the Secretary-General to submit to the General Assembly at its seventy-third session in 2018, a technical and evidence-based report that identifies and assesses possible gaps in international environmental law and environment-related instruments with a view to strengthening their implementation (Gap Report). The Gap Report is available on UN Environment’s website: <https://www.unenvironment.org/events/conference/towards-global-pact-environment>.

The General Assembly also decided to establish an ad hoc open-ended working group under its auspices to consider the Secretary-General’s report and to discuss possible options to address possible gaps in international environmental law and environment-related instruments, as appropriate, and, if deemed necessary, the scope, parameters and feasibility of an international instrument, with a view to making recommendations, which may include the convening of an intergovernmental conference to adopt an international instrument.

The organizational session of the working group was held at UN Headquarters in New York from 5 -7 September 2018 where the working group decided that the first substantive session would be held in Nairobi from 14 -18 of January 2019.

VENUE

The meeting will be held in Conference Room 2 on the grounds of the United Nations Office at Nairobi (UNON), where the UN Environment Headquarters is located: United Nations Avenue, Gigiri, Nairobi, Kenya.

HEALTH REQUIREMENTS AND MEDICAL SERVICES

A yellow fever vaccination certificate is required if you are arriving in Kenya from a country with risk of yellow fever transmission. Please seek further advise from your travel agent or doctor in your home country, who should have information on vaccination requirements for visitors into Kenya. For advice on other vaccinations recommended for visitors to Kenya, please contact UNON Joint Medical Service <http://medical.unon.org/>. Useful information can also be obtained from the WHO website <http://www.who.int/ith/en/>

Malaria is common throughout the year in many parts of Kenya. Nairobi, the capital city, is generally malaria-free but this does not exclude the need to stay safe from infection by mosquitoes. It is recommended to consult your doctor about malaria prophylaxis if travelling into Kenya and beyond Nairobi. Adequate safeguards against mosquito bites are advised (insect repellent, bed nets, clothing with long trousers and covering the arms).

Food and waterborne diseases including diarrhea are common – depending on the hygiene standards of the places you visit. Drinking water directly from the taps is not advisable. Drink only bottled water with unbroken seals. Avoid uncooked foods other than fruits and vegetables that you have peeled off yourself. Wash hands frequently with soap and water or sanitizers at designated spots in eateries and restaurants.

Medical costs incurred in Kenya will be directly borne by the participant. It is therefore strongly recommended that you arrange for your own travel health insurance prior to departure from your country and arrival in Kenya.

The UNON Medical Clinic emergency and first aid assistance, including on-call (24-hour) ambulance services are available. On-site medical assistance is available during all meetings, conferences and events. The UNON clinic also offers general medical assistance, vaccinations and a broad range of medical services.

UN ENVIRONMENT LAUNCHES THE GLOBAL PACT PORTAL

The '[Global Pact Website](#)' has been developed to support the process initiated by UN General Assembly resolution 72/277 to identify gaps in international environmental law, and discuss possible options to address these gaps.

The Global Pact Website centers around an [interactive presentation](#) of the recent report by the Secretary General entitled 'Gaps in international environmental law and environment-related instruments: towards a global pact for the environment'. This presentation is accompanied by a dedicated set of relevant materials, allowing users of the portal to further clarify and explore the issues relating to each section of the report. These have been selected from a wide range of sources including UN Environment e-learning materials, external materials, links and videos.

The website also features a [glossary](#) of key terms in international environmental law. This provides access to the relevant treaty provisions of MEAs, soft law instruments, relevant legislation and case-law as well as e-learning documents and courses. The glossary is linked to the interactive presentation of the Secretary General's report.

Users can also access free online courses in different languages including the newly re-launched [Introductory course on International Environmental Law](#).

The Global Pact Website was developed with the generous financial support of the European Union.

Participants are invited to, should they wish to do so, submit written comments or observations on the Secretary General's Gap Report to be hosted on the Global Pact Website. If you would like to make a submission, please email it directly to Angela Kariuki (angela.kariuki@un.org).
