# EQUALITY, GROWTH AND SUSTAINABILITY – DO THEY MIX?

**This conference is a forum for examining if and how questions of equality, growth and sustainability can be reconciled in organisations and implemented in general practice.**

The purpose is to explore and disseminate knowledge and experiences on gender equality, gender mainstreaming, diversity management, growth and sustainability, inclusion and equal opportunities.

The ambition is to discuss these key concepts and issues from an intersectional perspective, and in theory and practice, in order to rethink and find new ways to move on.

The conference will contain academic and doctoral sessions as well as workshops for practitioners and policy makers.
