

Adaptation under the UNFCCC process

Adaptation programmes and update on negotiations
Cancún, México, 8. December 2010

Overview of adaptation agenda under the UNFCCC

Update on adaptation-related negotiating items

On-going work programmes under the SBs

Nairobi work programme

- Continue activities while review underway
- Invite submissions on strengths, gaps and possible new activities

Systematic observation

- Strengthen observation networks and capabilities

Decision 1/CP.10

- Interim action (workshop on risk management approaches)

LDCs

- Extend LEG mandate (guidance on identification of medium/long-term adaptation needs, revise and update NAPAs)

Development and transfer of technology

- Organize French and Spanish training workshops and implement a pilot training course on preparing TT projects for financing for NAIs

In collaboration with international and other relevant organizations

Update on adaptation-related negotiating items

Enhanced action on adaptation under the AWG-LCA

- Progress towards agreement on a comprehensive **adaptation framework**
- Progress towards agreement on **institutional arrangements** (national, regional, international)
- Arrangements for **medium and long-term adaptation action** that builds on NAPA process
- Continuation of deliberations on the **mechanisms for loss and damage**

Needs for support on adaptation
